REASONS FOR ALLOWANCE

1. Independent claims 8 and 14 are allowed for the reasons as set forth in the Office action dated 25 March 2003 (the reasons are reproduced below for convenience):

Regarding claims 8 and 14, the combination of Shimura and Kim are silent to each and every claimed feature. Specifically, Shimura and Kim are silent to

determining whether each block histogram intersection value for blocks surrounding the central area and the average histogram intersection value of the foreground are higher than respective thresholds as claimed in (d) and (f);

determining whether the number of intersection values below a threshold are not greater than a certain number as claimed in (d)

determining whether an average of the block histogram intersection values is higher than two thresholds as claimed in (g) and (h); and

computing an average histogram intersection value of the foreground area, and determining if it is not lower than a threshold as claimed in (e).

Further regarding claim 8, Shimura and Kim are silent to

determining whether the average of the block histogram intersection values is higher than a third threshold as claimed in (j); and

determining whether the time difference of capture is less than two thresholds as claimed in (i) and (k).

Claims 8-17 are allowed.

Art Unit: 2623

2. Independent claims 35, 42, 47, and 48 directly correspond to claims 8 and 14 and are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
